

# JOB DETAILS FOR THE POST OF CHIEF FINANCE OFFICER

## LANCASHIRE TEACHING HOSPITALS NHS FOUNDATION TRUST

# **CHIEF FINANCE OFFICER**

#### The Trust in context

We are one of the largest acute Trusts in the country, providing district general hospital services to 370,000 people in Preston, South Ribble and Chorley and specialist care to 1.5 million people across Lancashire and South Cumbria.

Our mission is to always provide excellent care with compassion which we do from three facilities :

- Chorley and South Ribble Hospital
- Royal Preston Hospital
- the Specialist Mobility and Rehabilitation Centre

We are a values driven organisation. Our values were designed by our staff and patients and are embedded in the way we work on a day to day basis:

- Caring and compassionate. We treat everyone with dignity and respect, doing everything we can to show we care.
- Recognising individuality. We respect, value and respond to every person's individual needs.
- **Seeking to involve**. We will always involve you in making decisions about your care and treatment, and are always open and honest.
- **Team working**. We work together as one team, and involve patients, families, and other services, to provide the best care possible.
- **Taking personal responsibility**. We each take personal responsibility to give the highest standards of care and deliver a service we can always be proud of.

We believe that to provide the best care, we need to continually improve the way in which we provide services. If we are to be the best, we need to continually seek improvement and embrace change, empowering our teams to develop ideas and drive them forward. In order to do this, we have adopted a continuous improvement approach and developed a strategy to support this.

Our strategic objectives are

- To provide outstanding healthcare to our local communities
- To offer a range of high quality specialist services to patients in Lancashire and South Cumbria
- To drive innovation through world class education, training and research

The delivery of excellent services to our local patients through the provision of district general hospital services is at the core of what we do. To achieve this we need to ensure we focus on meeting key quality and performance indicators so our patients can be assured of safe and responsive services.

As well as providing healthcare for our local patients, we are proud to be the provider for a range of regional specialist services. These services include:

- Major Trauma
- Cancer (including radiotherapy, drug therapies and cancer surgery)
- Disablement services such as artificial limbs and wheelchairs
- Neurosciences including neurosurgery and neurology (brain surgery and nervous system diseases)
- Specialist vascular surgery
- Renal (kidney diseases)

Our portfolio of services will continue to develop as the strategy for the provision of services across our region is developed by our commissioners, but the delivery of specialist services will remain at the heart of our purpose and the decisions we take in our day to day activities will be taken in the context of ensuring we remain as the region's specialist hospital. We have recently undertaken a service portfolio review to ensure that we can deliver sustainable services which have key interdependencies to our regional service provision.

When we were established in 2005 we were the first trust in the county to be awarded 'teaching hospitals' status. We believe that developing the workforce of the future is central to delivering high quality healthcare into the future. We know we are a regional leader in respect of our education, training and research and as the only NIHR clinical research facility in the region and a leading provider of undergraduate education, we will continue to drive forward the ambitions described in our education and research strategies.

We employ nearly 10,000 staff and are committed to working in partnership to deliver seamless care to patients.
